TESTIMONIALS

I was employed part time in Food Service for Rye City School District in New York and was earning a small hourly wage, just enough to pay the bills. I always dreamed of owning my own business and so I decided to try my hand in the catering business. My business began to grow and before I knew it I was operating two businesses from my home; SoulVeggie Delicious, a home based catering company specializing in vegetarian food service and BK management, an event planning and talent management business. However, I did not have enough money to grow them to their potential. That's when I contacted 123 Lump Sum/Structured Asset Funding. They provided me with the funds necessary to move my business out of my home. Thank you!

After my husband suffered a seizure, we encountered unexpected financial difficulties. Our tri level house was no longer suitable to accommodate the ensuing weakness from his medical condition. To make matters worse, we were unable to sell our current house. Thankfully, I called 123 Lump Sum/Structured Asset Funding. We were immediately able to obtain the funds for a down payment on a new and better property. And the best part of everything is that we still receive enough money to live comfortably. Thank you with all the sincerity in the world!
